*Editor's Note:* Additional authors had works accepted

for publication during this editorship. For various reasons, we were not able to publish a complete complement of journal pages during 1983-85, so these authors have not yet seen their excellent efforts in print. The next CSS/ editor, George Ziegelmüller, has graciously agreed to devote some of his pages to a catch-up effort. Both the as-yet unpublished authors and I thank him for that graciousness.
